We are somewhat of the opinion in fer entially expressed by the Governor of West Virginia in his proclamation, (which we reproduce this morning) that it is hardly worth while to make much of a spread on the subject of Thanksgiving. The public are presumed to know the object if not the origin of the day. It is sort of Christmas day—a day of good cheer—a harvest home day—and had its origin among the children of Israel in the "Feast of Ingathering"—a feast that crowned the labors and blessings of the year, after all the crops had been gathered and garnered. The Puritans of New England, who followed the Old Testament ussges much more closely than those of the New, instituted the same Mosaic feast when West Virginia in his proclamation, (which instituted the same Mosaic feast when they long ago established the Thanksgiving day in their land. They were opposday, and took their Christmas on Thanksgiving. As to silver coinage the President suggests that the present rate of coinage is larger than has been found to be useful or necessary. periahed.

The Board finds, after an examination of fifteen witnesses of the Champion's crew and passengers and six of the Lady Octavia's crew, that the disaster was wholly due to the absence of the proper lookout on the Champion, as the night was clear and the mate and boatswain of the Lady Octavia state that the Champion's lights were seen from ten to fifteen minutes before the collision. The report further says: We are of the opinion that the fault rests mainly with R. H. Leonard, first mate of the Champion, who had charge, and were it not for the fact that he was lost, we should express ourselves in severe terms, as it is in evidence that he called the lookout from his post to assist in setting the topsail and not keeping a lookout himself or giving instructions to the man at the wheel to do so, the small number of the crew necesitating the assistance of the mate.
